Dear Brothers and Sisters:

I hope everyone is well and looking forward to Rolling Thunder XXIII May 30, 2010. I would like to thank everyone for the years of support you have given to make this demonstration a success. Our Prisoners of War/Missing in Action and our Troops need our support more than ever.

Just what is the Government doing about the live POW/MIA issue? They are doing a great job at crash sites and recovering remains, but no real effort into investigation reports of live American POW's being held in foreign countries. Why not? What is being done against the countries who are known to hold live POW's? Our Government gives these same countries funds, supplies and state they are cooperating with us in good faith on the issue. I don't think this is enough when it comes to live American POW's being left to die in foreign countries after taking the oath to serve our Country and to protect our freedoms. The Government should be out there investigating the reports and not looking at the same paper work for years on end. We are not going to find a live American POW on any desk in Washington, D.C. Are these foreign countries ever asked for live POW's? NO!

Has the Department of Defense done anything about the false classification of our Troops returning that doctors have given them Immature Disability Disorder (I.D.D.) and not Post Trauma Stress Disorder (P.T.S.D.)? Not that I have been aware of! Many of our Troops have served two, three and four tours in combat and this classification (I.D.D.) is just another way for the Government to save money from the seat and blood of our Troops.

Our Government is so worried about the enemy and civilians being wounded or killed that they forget about what is being done to our troops. Captured American troops have been tortured and killed by the enemy and no one ever brings this to the public attention. Our military can not return fire, use artillery or air support when large forces attack them in battle because the enemy uses civilians as shields or too many civilians may be injured. Where are our Troops rights??

Keep America free and support our Troops. Remember our POW/MIA's, our Troops serving and God Bless the United States of America.

Sincerely,

Sgt. Artie Muller
Founder/National Executive Director

Gary Scheffmeyer
National President
